Block foundation

Overview:

This 3 bed, 2 bath home has stunning views from master suite and walk-out basement. The home is certainly the best lot in the community as it sits at the end of a quiet cul-de-sac and includes a beautiful landscape, terraced garden, and tranquil garden pond. The kitchen offers all the amenities with a double stainless Steele sink, 4 year old upgraded black appliances, and large dining area. The adjacent utility room includes a large upright freezer, washer and dryer. The master suite will accommodate a king size bed and offers a large walk-in closet. The recently updated bath has an oversized walk-in shower and 36" height vanity with lots of counter space. The large basement is an opportunity for another living space with a sliding glass door to a beautiful private concrete patio. The roof was replaced in January 2020 and the one car attached garage offers additional storage. This property won't last long!
